SAN FRANCISCO BREAD AT 6 CENTS A LOAF

San Francisco, Oct. 25.—The price of bread will be raised to six cents a loaf or higher, this afternoon, at a meeting of the California Master Bakers' association. With the price of wheat touching such a high figure, having risen 90 cents a barrel in a week, the bakers declare it is impossible for them to sell a 12 ounce loaf for five cents and make a profit. The law sets the weight of a five-cent loaf at 12 ounces so the bakers propose to meet the situation by selling a slightly larger loaf for a higher figure.

EVANGELIST TELLS HAPPY STORIES

Evangelist Mathis was apparently in his happiest mood last night at the tabernacle, many of the crisp stories pertinent to his subject creating laughter and applause. He took for his text, "For the prince of this world cometh and hath nothing in me," and he proceeded at once to show a few of the countless methods through which the arch tempter preys on the souls of men.

"The greatest sin of the church is self-ease," stated the speaker—"a sort of dry rot, if you please, and the reason so many give in to the devil is because they stop and listen to his seductive pleadings." Then, impressively and reverently, he said that Christ must be first in every life, for He would not be a trailer.

Mr. Vessey and Mrs. Harmon sang "Blessed Jesus."

Afternoon services began today, the hour being from 3 to 4 o'clock.

STORY OF CARRANZA DEFEAT BY VILLA

Washington, Oct. 25.—The defeat of Carranzista General Ozuna, with 3,000 men, by Villistas in the battle at Palomas several days ago is described in a dispatch from General Bell, at El Paso, forwarded today by General Funston:

"A prominent official from Chihuahua City says that one of the commanding officers of the Ozuna army told him the following story of the battle of Palomas:

"General Ozuna had about three thousand men and they had taken out 11 trains loaded with provisions, ammunition and troops, besides the cavalry. When near Palomas, Villa sent 200 men to intercept them and give battle for a few minutes, retreating and fighting as they retreated. Villa sent another detachment in behind Ozuna's forces, cutting the railway and telegraph and also attacked Ozuna's rear. Ozuna followed the retreating Villistas into the foothills, and there Villa attacked. They ran, and more than 1,000 of them were put out of commission, leaving their trains and equipment. The Carranzistas later tried to make a stand, but Villa drove them into Chihuahua and established his headquarters five miles outside the city."

ARGENTINE DROUGHT BOOSTING WHEAT

Buenos Ayres, Oct. 25.—A severe drought that threatens severe damage to the Argentine wheat crop has boosted wheat prices out of sight and has killed all chances that the United States may obtain relief from rising flour prices from Argentine shipments.

Wheat sold at 15 pesos per hundred kilos yesterday, a new record on the Buenos Ayres market. Experts say that a prolongation of present drought for a fortnight will destroy three-fourths of the crop. Thousands of cattle are dying for lack of fodder.

Little wheat was shipped to the United States from Argentine. The Argentine surplus was sold largely in European countries, which must make larger requisitions upon the United States if the Argentine surplus is wiped out by the drought.

The formal calling off of the strike was sent out this afternoon.

Although details of the conference at which the strike was averted were not given out, it was said a strike recall order would be sent by the labor leaders.

How They Change.

"How marriage changes a man! Before we were married Henry's displays of affection were positively overdone."

"And now?"

"Now they are very rare."—San Francisco Chronicle.

COURAGE.

Keep up your courage, no matter what manner of troubles confront you. The shores of fortune are covered with the stranded wrecks of men of brilliant ability, but who have wanted courage, faith and decision and have therefore perished in the sight of more resolute but less capable adventurers who succeeded in making port.—John Foster.

BIDS OPENED FOR NEW BATTLESHIPS

Washington, Oct. 25.—The Newport News Shipbuilding & Dry Dock company was the lowest of four bidders in bids opened today by the navy department on four battleships.

Its bid on one electric-driven battleship was \$10,470,000 and on two electric-driven battleships \$10,375,000 each. On steam-driven battleships, it bid \$10,990,000 for one and \$10,890,000 each for two.

The one battleship is to be completed in thirty-nine months and where two are bid for, the second is to be completed in forty-five months.

Conditional figures of the Fore River company were lower, but they depended on a provision that the bids be increased or decreased according to the price of labor and material as it rose or fell. The company proposed that the federal trade commission adjudicate claims which would arise under this proposal. Under the flat bid, such as the others made, the Fore River company bid \$10,875,000 for electric-driven and \$11,745,000 for steam-driven battleships.
